Q1/ Find the number of column of matrix 3×4 A

Q2/ Add element to vector contains six elements

Q3// Find the greatest element in diagonal of matrix

Q1/ Find the smallest integer of number B

Q2/ Find the number of elements of vector contains five elements

Q3/ Replace the third column of 4×5 matrix

Q1/ Find the size of matrix 3×5 C

Q2/ Replace element in vector contains seven elements

Q3/ Find the sum of elements of 4×3 matrix

Q1/ Find the real part of complex number D

Q2/ Delete element in vector contains eight elements

Q3/ Delete the second column of 5×4 matrix

Q1/ Find the greatest integer of number E

Q2/ Find the number of elements of vector contains six elements

Q3/ Find the minimum element in 4×6 matrix

Q1/ Find the number of rows of matrix 3×6 F

Q2/ Add element to vector contains six elements

Q3/ Find the product of elements of diagonal of matrix

Q1/ Find the imaginary part of complex number G

Q2/ Replace element in vector contains seven elements

Q3/ Add row to 5×3 matrix

Q1/ Find the imaginary part of complex number M

Q2/ Add element to vector contains six elements

Q3// Find the greatest element in 5×3 matrix

Q1/ Find the size of matrix 5×4 N

Q2/ Find the number of elements of vector contains five elements

Q3/ Replace the second row of 3×5 matrix

Q1/ Find the real part of complex number O

Q2/ Replace element in vector contains seven elements

Q3/ Add column to 4×6 matrix

Q1/ Find the number of rows of matrix 3×4 P

Q2/ Find the number of elements of vector contains six elements

Q3// Find the minimum element in diagonal of matrix

Q1/ Find the greatest integer of number Q

Q2/ Delete element in vector contains eight elements

Q3/ Find the product of elements of 3×6 matrix

Q1/ Find the smallest integer of number R

Q2/ Add element to vector contains six elements

Q3/ Delete the third row of 4×5 matrix

Q1/ Find the number of column of matrix 4×3 S

Q2/ Replace element in vector contains seven elements

Q3/ Find the sum of elements of diagonal of matrix
